It will not be a strange nor an unexpected sight to see the Democratic nomination go begging in 1880.

The Milwaukee News has not shouted "Jenkins and Victory" for more than a week. Doesn't the signs of the time suit the News?

General Grant goes to the Yosemite valley to-day, and will remain a week, where he will be free from public gaze and handshaking.

There is no backing down of John Kelly in New York. He says he will stick till the last vote is polled and Tilden and his man Robinson defeated.

In the eight or ten speeches which Mr. Jenkins promises he will make during the campaign, we presume he will relate his connection with a certain platform in 1877. Truthful James will not go back on his past record.

So Tilden feels shaky about 1880. He is slacking his twist on the Democratic party and says he doesn't care about the nomination next year. He will care less about it when he hears from Ohio next week and from New York in November.

A very prominent Democratic politician in Florida says that the State was never so prosperous as when the Republicans had control of it. "With all their stealing," he says, "they had more money in the Treasury and the people had more money in their pockets, than they have had since." And he should have added that the Republicans never repudiated a dollar of the State debt.

Mr. Alexander Mitchell returned from Europe Monday, reaching Milwaukee in the afternoon, and within half an hour after his arrival was interviewed by a Chicago Times reporter. The late head of the Democratic ticket said one thing to the reporter which the Democrats should read, and that is that "the Democrats, if they are honest about it may yet become truly representative correct financial principles." There is some difference between that expression and the Democratic platform.

A new and very attractive edition of the Proceedings of the Republican State Convention, and the Republican celebration has been issued for free distribution, by the Republican Committee. It contains in full the speeches of Hon. Zach Chandler, General James A. Garfield, Hon. C. G. Williams, and Hon. J. C. Burrows. Aside from these vigorous speeches, it contains the address of ex-Chairman Rublee, the address of Hon. E. W. Keyes, the address of Chairman Cassoday, the acceptance speech of Governor Smith and some other brief addresses. The pamphlet is handsomely gotten up, is neatly printed and contains as much interesting and wholesome political literature as can be found in any document ever issued in this country. Persons desiring one of these or a dozen of them, should address Chairman Baker, at Milwaukee, or Chairman W. T. Vankirk, Janesville, who will respond promptly.

There lives in Chicago an Irishman who has gained very much prominence in that city on account of his intense industry in working for his party, his shrewdness in planning campaigns, and his influence over his countrymen. His name is Miles Kehoe. He is not an ignorant man for he has rapidly risen from a moderate, ward politician to a position in which he has made his influence felt in Chicago, and in addition to that has been in the State Senate. He is a keen observer of men and things, and has studied the politics of both political parties, and after mature deliberation he has made up his mind that the Democratic party is no place for him or his countrymen, and publishes to the world that hereafter he is no longer a Democrat but a Republican. He abandons the old Democratic party—

Because it is the pretended friend only, of the working man.

Because it has never done anything to better the condition of the Irishman or any other foreigner.

Because every Knownothing who was a native American, is now a Democrat.

Because the Democratic party is a party of State Rights, and disloyal to the Government.

Because the Democratic party since the war never supported an honest money for the workingman.

Because it is under the control of the Southern Democrats, and dare not oppose them.

Mr. Kehoe says there are thousands of Irishmen in Chicago and elsewhere who will follow him, and who like him are disgusted with the Democratic party and its pretended devotion to the interests of the workingman.

THE MADISON DEMOCRAT AND THE YAZOO MURDER.

It is refreshing to see at least one Democratic paper in Wisconsin come out boldly and denounce the political murders in the South. The Madison Democrat, which two years ago drifted away from its party on the financial question—the party having espoused the rag baby—has again taken advance grounds concerning the assassination and the murders in the South. The Democrat is the only Democratic paper in this State which has had courage enough to say that "the ruffian element in the South is doing the Democratic party incalculable injury by its lawless course." If the Democratic press of the North had the moral courage to denounce these murders, and to hold the party responsible for them, we are of the opinion that it would not be long before these political outrages would cease. But in almost every issue of Democratic papers, there is something "making light" of these foul murders, or alleging that there is no political significance attached to them. When this course is taken the Southern murderers are encouraged and they go from bad to worse. Politics in the South is bad enough already, and the South has enough to discourage it without having to bear the immense burden of frauds and murders. It wants more business, and less of massacres and mid-day assassinations. It will never prosper until this lawless Bourbon element of the Democratic party is thrown out of power, and a more conservative party takes its place.

The Madison Democrat has taken a commendable course. It is a course dictated by the better feelings of humanity, and one which will meet the approbation of all men regardless of party who desire to see peace, political freedom, and prosperity reign the South. We trust that journal which now shows some independence of thought, will remain true to its new position, and demand that its party shall not be held responsible for the diabolical outrages committed in the South in the name of Democracy. The great question for the South is, honest elections and fair counts, and more business and greater prosperity.

SENATOR CONOVER AND THE SOUTH.

While ex-Senator Conover, of Florida, was in Janesville last week, we had a conversation with him on the prospects of Republicanism in the South. He has lived in Florida thirteen years; has been Speaker of the lower branch of the Legislature State Treasurer, and United States Senator, six years. He is thoroughly posted in the politics of the States, and has carefully watched its political growth from the early days of reconstruction till the present time. During his residence in Florida, the State has been governed by Republicans and controlled by Democrats. It has been overwhelmingly Republican at the polls and then by the "local self-government" process, has been turned into a Democratic strong-hold. But he is more hopeful of Republicanism in the South than many others, and is sanguine that it will yet be the "hot-bed" of true Republicanism in this country.

Mr. Conover's reasons for believing that the Republican party will yet triumph in the South, are these: The young element growing up there is somewhat progressive, and they begin to realize that the Republican party is the only really progressive party, and are gradually tending to its support. The most of the howling and ranting is done by the old-timers, the Bourbon element, the fossilized remains of the old slave party, who for years held office, and are now being thrown out. They keep up a constant agitation in the hope of personal benefit by getting back into office again. This old element has more or less influence on the rising generation and in times of political excitement and at elections, cause the young men to become somewhat enthused in their cause; but often the excitement has passed away, the young men take time to think, and become disgusted with Democratic politics, and vow never to be inspired with any Democratic hurrah again.

Many of the growing men of the State see that there is nothing to be gained from the Democratic party, and that the Republican party is the only one whose policy will bring personal and public prosperity. Whatever has been done in Florida to develop the State, has been done by Northern capital and Northern enterprise. The men who have gone there with their money and energy have been Republicans. They have gone into manufacturing, into commercial business, have bought large tracts of unimproved land, put it under cultivation, hired a large amount of help, did extensive building, and in this way have made times good. They have increased the price of land, opened a market for manufactured articles and for the products of the plantations. All this has been done by these "carpet-baggers;" and it is worthy of note that wherever these dispised Northern men are thrown out of office and are politically disfranchised, that the Southern States begin to repudiate their debts and cry about hard times. This is not only the case in Florida, but it is the case in Louisiana, South Carolina, Tennessee, and other Southern States.

Mr. Conover says that in his State there there is more encouragement being shown Northern men and capital to engage in business there. The people have tried both parties, and they are becoming satisfied that commercial prosperity and agricultural advancement can not be secured as long as the old Democratic party sacrifice business on account of politics. If the State is to prosper, it is through the influence and by the means of Northern men, Northern enterprise, and Northern money. Many are now convinced that there has been "too much politics and not enough business." Yet in the face of these facts, if a Northern man goes there with his capital and his energy, determined to attend to his legitimate business, he is called a "carpet-bagger." Mr. Conover is still called a "carpet-bagger," though he has resided in Florida more than thirteen years, and has more monied interest in that State than any representative the State ever sent to Congress. The ex-Senator is hopeful that the day will come when the people will become so thoroughly disgusted with the extravagant Democratic rule in the South, that they will shake off the political serpent, and give largely of their support to the Republican party. The fact is acknowledged by all, that the Southern States were never so prosperous as when under the Republican rule.

That is What the Reform School at Waukesha is Becoming—A Malignant Type of Typhoid Fever Prevailing in the Institution—Five Deaths Already Reported and Many Down with the Disease—The Close Mouthed Managers Refuse to Make Any Disclosures.

Special Dispatch to the Sentinel.

WAUKESHA, Sept 29.—A terrible state of affairs exists at the State Industrial School for Boys, located at the southwestern suburbs of this village. About two months ago several of the inmates were taken with a fever, which latterly assumed a malignant form of typhoid. The malady was at first confined to building No. 7, but it continued to spread, and now none of the buildings are free from it. The Sentinel correspondent this afternoon visited the institution in company with Dr. Joshua Bacon, and learned that there are at present fourteen cases, and that three deaths have resulted within the past week. Three of the boys are in a very critical condition, and in fact one of them was then found to be lying at the point of death. Before this will appear the little fellow will have joined his three comrades. Among the sick is William Sleep, acting superintendent since the removal of S. J. M. Putnam, but he is now considered out of danger. Five other officers are down with the fever, but they were removed to their respective homes, so that they are not at the school. One of them, Lorenzo Love, was taken to the residence of his father, just out of the village, a few days ago, and since that time the whole family have been attacked by the fever, and one of them died to-day.

Dr. Bacon, like everyone else who could give information, is very reticent. I succeeded, however, in pumping him to the extent that the sanitary condition of the school is constantly growing worse, and if something is not done at once he is very fearful of the result. Instead of abating, the fever is spreading daily. I also called on ex-Senator Wm. Blair, the local member of the board of managers, of the school, and found him and Judge Gibbs, of Whitewater, another member, in close conference and with very long faces. Both gentlemen were very close-mouthed. Mr. Blair, in response to a question, said he was positive that the water supplied to the school contains no impurities, and that the prevalence of the fever cannot be attributed to it. He could give no reason for the terrible condition of things at the school, however.

Mr Blair's statetements evidently are well founded in face of the facts. The institution obtains it water from wells situated near the building, and which, as far as can be learned, are surrounded by sewers, drains, etc. It is not all unlikely, but is probable, that the well water has become impregnated with impurities from these sources. Dr Bacon, in an ungarded moment, and in a tone of discouragement, said, "If they would put the boys out in tents near a spring where they could get some decent water, I might soon relieve those that are now sick. As it is, however, I cannot see my way clearly."

SERIOUS STRIKE.

One Thousand Men, Mostly Cabinet Makers, Out on Strike in Cincinnati.

CINCINNATI, Sept 29—Within the past forty-eight hours the various trades unions of this city controlling the action of the cabinet makers, coopers, shoe makers, and some railroad employes, have succeeded in getting about 1,000 men on a strike. Of this number a large majority are cabinet makers and machine men employed chiefly by the Mitchell & Rammelsberg Manufacturing Co., Henry Closterman, Felkamp & Brother, Buzing & Co., Betts Street Furniture Company, and the Central Furniture Association. The uniform demand of the strikers is for 15 per cent advance, and the employers have thus far firmly declined to allow the increase. No disturbance has occurred.

About 800 striking cabinet makers held a meeting to-night, and decided, by adopting resolutions, to meet every morning and report progress, to keep away from factories where workmen were out on a strike, to assess workmen who may receive the increase demanded, 5 per cent. for the support of the needy strikers, and to form a procession to-morrow morning to march through the neighborhood where the men have not yet struck. A strike committee of seven was appointed, of whom five declined to serve.

SOUTHERN DEMOCRACY.

Tilden and the South—Prospects of a Lively Quarrel.

WASHINGTON, Sept. 29.—A report which is freely circulating here, that Tilden criticises the Southern Democracy for the follies of the extra session, causes a good deal of comment and does not increase the love of Southern men for him; but it is no secret here that his reported views are shared by a large number of leading Northern Democrats. The recklessness of human life and the disregard of public obligations in that section throws a burden upon the National Democracy which they seem unable to carry. It is said by those who have given this subject close attention that but for repudiation and lawlessness and wholesale murder at the South, Ohio and New York would go Democratic. If these States are lost, there is a prospect of a lively quarrel inside the National Democracy.

SHOCKING TRAGEDY.

A Wealthy Farmer and his Wife Murdered at Cassopolis, Michigan.

CASSOPOLIS, Sept. 29.—A most attrocious and mysterious double murder was committed about fifteen miles north of here in Little Prairie Round. Charles H Morris, a wealthy farmer and his wife were found dead in their own dwelling, in what is familiarly known as the Dolph Morris farm this morning. Morris was lying on the porch just across the threshold with two bullet holes in his body, one having passed entirely through close to his heart, and the other, entering near the neck, passed downward, and lodged near the backbone, and must have been fired after he fell. Mrs. Morris was found in a closet adjoining her sleeping room with three bullet holes in her body, two of which would cause instant death. The marks of two or three other bullets were found in other parts of the dwelling. The fiend fired two shots into the body of Mrs. Morris, after she fell, as the bullets which passed through her body were found imbedded in the floor underneath where she lay, and so close as to burn her night dress. One of the assassins took a horse from the barn and rode to South Bend, Ind., a distance of forty miles, where the horse was found soon after daylight this morning loose in the street. Great excitement prevails. As to the motive for the murder, two gold watches and a large amount of money were undisturbed on the bureau near where Mrs. Morris was found, and no indication of robbery has yet been discovered. Both the deceased were important witnesses in a foreclosure suit, which had recently been instituted in the United States Court at Grand Rapids, and they are reported to have said that the mortgage of $11,000 was a forgery.

"COLONEL SELLERS."

Mrs. John T. Raymond Obtains a Decree of Divorce from Her Husband on the Ground of Adultery.

NEW YORK, Sept 29—In the Brooklyn City Court to-day a decree of absolute divorce was entered in the action recently brought by Mrs Marie E Raymond against John T Raymond. Mrs Raymond appears on the stage as Marie Gordon. Her husband is known everywhere as "Colonel Sellers." No defense was made by Raymond to the action for divorce, and great secrecy has been observed in regard to the proceedings by counsel and other interested persons. Action was brought on the ground of adultery, but the name of the person has not been made public. It is known, however, that she is a woman living in this city. She is not an actress. She is sick at the present time, and last week Mrs. Raymond's counsel applied to Judge Neilson of the appointment of a referee to take testimony. Witness only gave it on condition that her name should not be made public. To-day the case was tried, and the entire proceedings did not occupy more than half an hour. Mrs. Raymond was present and testified in regard to her marriage with defendant, and such other facts as the law permits a wife in a divorce case to testify to. The testimony given by other witnesses referred to was also read.

At the conclusion of the case Judge Neilson directed a decree of absolute divorce to be entered. The clerk of the courts was especially enjoined not to give any facts to the public, and the referee was also requested by the wife's counsel to say nothing about the case.

COOPER'S CAREER.

Arrest of a Noted American Forger in London.

LONDON, Sept. 29—A man who was arrested last week for forgery at Messrs. Glynn, Mills & Co.'s, bankers, of this city, has just been identified as William Ringgold Cooper, an American of birth and education, formerly of the United States Navy but one of the most daring and successful forgers who ever operated. He was Ensign for the staff of Admiral Lee, of the North Atlantic Squadron, during the war, after which he was given duty in the Office of Detail in the Navy Department. In Washington he forged the names of several paymasters to the amount of several thousand dollars. Though well known in Washington, he went to the Fourth Auditor's office, coolly represented himself as paymaster at Washington, got the money, and then went to the next office, representing himself as another paymaster and secured a further sum. He was subsequently arrested, and sent to the State prison. In the navy register of 1867, his name is thus entered on page 146: "Dishonorably discharged, acting Ensign Cooper, August 2, 1866—General order, No 80, August 27, 1879."

Cooper's friends represented that he died in prison, but in reality he went to San Francisco at the expiration of his term, where he became a stock broker, and committed tremendous forgeries. A year or two ago he fled, and was never heard of after.

OBITUARY.

MADISON, Sept. 29—The Hon. Isaac Adams, member of the assembly from this (Dane) county, in 1867 and 1875, died at his home in Cottage Grove yesterday. Mr. Adams was a good citizen, and his death was universally regretted by all who knew him.

The body of young Jacobson, who died on the cars at Oregon, Saturday, was forwarded to-day to his mother, at Chatfield, Minn.

ELIZA BRIEN.

MILWAUKEE, Sept. 29—It has transpired that a bold attempt at jail delivery was made Sunday morning, through the connivance of a girl in the kitchen of the institution. Eliza Brien had secured a key and freed the prisoners in the lower tier of cells, and had bolted the turnkey in the upper tier, when the latter discovered the plan. Seizing a broom-handle, he reached through the wicket and moved the bolt back, reaching the lower floor in time to prevent a general exodus. Eliza Brien and Charles Bierbach, brother of the prisoners, are under arrest. The Bierbachs are convicted of the robbery of Laubenheimer, or Hartford, Wis.

CHICAGO GOSSIP.

CHICAGO, Sept. 29—This city is the largest lumber market in the world; very frequently 5,000,000 feet arrive in twenty-four hours; the present summer has averaged 2,000,000 feet daily. There is a steady country and city demand. Prices have advanced fully 10 per cent during the last month, with a strong upward tendency.

A great many of the Chicago Democrats are going back on Sammy Tilden—consequent upon his selfish action, in withholding a small share of his surplus wealth, from their sticken brethren in Memphis. It is said, that he promises some money soon, in order to stay their wrath. He and his followers, remind me of a fashionable old maid, who with her dogs, in a North Clark street car, the other day, signaled the conductor to stop; the small canines on hearing the bell, sprang out of her lap and made for the door, when she exclaimed, coaxingly—"Wait, don't hurry darlings, mama is coming." So with Tilden, he feels bad at the bolting of the pets, and says, "Wait, don't hurry darlings, papa is coming"—with some money.

A wealthy Chicagoan told me last Saturday, that he is about purchasing an elegant residence, on West Washington street, which he will present to General Grant on his arrival in this city, next November, as his future home. Extensive preparations will be made to give him a rousing reception, which will eclipse anything heretofore undertaken in Chicago. The state and city militia will have a grand encampment on the Lake shore, near the Exposition building, everything possible will be done to make this city the central point of patriotic demonstration to the deserving hero.

Wheat was on the "boom" last week, but declined some on Wednesday. Long-faced and grim-visaged speculators—many of them—curse the day when they risked their all on a falling or advancing market. Some young men of very small capital, ventured into the demoralizing whirlpool, and came out ahead some thousands. One made $4,000 and another $7,000 in four days, on an investment of $300 each, dozens of others failed,—one young man in particular, who was tired of quiet, honest farming life, came to the city against the wishes of his loving parents, he was their only child, the solace of their declining years. Securing a good situation in a South Water street commission house at a fair salary, his prospects seemed bright. He had been about six months in his position, when in an evil hour he was prevailed upon by city acquaintances to invest his $150 of savings in margins on wheat; he did so last month and doubled his money; invested the full amount of $300, doubled again; invested again, lost all! Stole his employer's funds, invested that; lost again; stole some more; stayed out nights; took to drinking, and is now on the high road to ruin and degradation.

On Monday last a tug boat exploded her boilers, opposite Lincoln Park, blowing her into fragments, and killing the Captain, Engineer, and two others. Part of the smoke stack was thrown on board the vessel she had in tow. The Captain's body has since been recovered.

A business man of this city, went into a saloon last Wednesday, and tendered a $1000 bill in payment for a glass of beer. He was drunk, and when taken to the station, over $4000 was found on his person in greenbacks.

The streets and hotels are crowded with visitors to the exposition. The retail dry goods and candy stores are reaping a rich harvest.

LAWRENCE MOUAT.

General Logan on the Democracy.

In his late speech at Burlington, Iowa, General Logan paid his respects to Northern Democrats in the following style:

"Their conduct reminds me of a friend who refused to attend church for many years because he said the minister preached politics. During the sermon the minister quoted the language, 'The wicked shall be turned into hell, with all nations that forget God.' This gentleman left the church at once. When his niece returned to his house she inquired why he left the church. He said he would not listen to a political sermon. The lady replied, 'I did not hear any politics.' He replied. 'Did he not say "the wicked shall be turned into hell, and all the nation that forget God?"' The lady replied, 'Yes, but what of that?' 'Why,' said he, 'if he did not mean the Democratic party, who the devel did he mean?' [Loud and prolonged laughter and applause.] He told the story to illustrate how suspicious some people are, and he did not want the Democrats to get mixed up so they would not know who he meant. You Democrats up North are clever fellows, but you don't amount to a row of pins. [Laughter.] You have no more voice in politics than the black man. You think you have because you vote, but you have not. You belong, body and boots, to the Southern Democrats. They hold caucuses which you enter, but they command, and you obey.

"In Congress—with eighty-three rebels, all Democrats, they have a majority. These rebels hold a caucus, and decide on a line of action, and your Northern Democrats not only fall in, but they lead the van, and our Greenbacker comes in, too. I am opposed to these men having control of this country. They stand on a platform of State sovereignty. Democracy has an idea that each State is separate and apart as a power, and co-equal with the Government and can separate at their will. The Democrats had admitted, since 1830, the independence and sovereignty of a State. The Government is not a Government of States; it is a Government of the people, in which the States all have certain duties to perform, and to be so performed as to subordinate it to the the Government of the United States. This Government desires not, nor does it intend to interfere with those matters of a local character over which the State has power given by the constitution, but the Government would exercise its power so as to clothe the citizen with his rights, and so he will be safe in the exercise of those rights. The laws of Government are the supreme laws of the land, anything in a State to the contrary notwithstanding, the courts everywhere recognize its power; the laws of the States must conform to the constitution. If the States were independent they could not exercise their power outside of the Government; if they have sovereignty it is that which is subordinate to that of the United States; if they have sovereignty without this, then the Government is not a power. It was on the theory of sovereignty resting in a State that the people of the South claimed the right to secede. In 1861 you know what it produced. We find after four years of bloody war that the questions we thought settled forever is still alive; we find in the Democratic Congress the men who are fighting to destroy the nation, the Northern Democrats submitting themselves to the South. With eighty-three members in the House and a majority in the caucus, they whip in the Northern Democrats; they recklessly disobey the laws; they refuse to make the necessary appropriations, and plainly tell the Executive he shall not enforce the laws he is sworn to enforce. It is the doctrine of anarcy and secession.

"NEW ZEALAND CHERRIES."

The Sad Result of a Louisville Fruiterer's Practical Joke.

From the Louisville Courier-Journal.

Yesterday a fruit dealer on Market street, incensed by the liberties taken by the loafers with his wares displayed at the door, placed a half gallon of Cayenne peppers in a basket, labeled it "New Zealand Cherries," and hung it in a conspicuous place in front of his stand. In a few minutes the next door merchant sauntered up, inquired how trade was, picked up a New Zealand cherry, placed it in his mouth, and suddenly left to attend to a customer. Rev. Dr. Bolly next rounded to, observed that the yellow fever news from Memphis was not very encouraging this morning, and—ah! it had been years since he had tasted New Zealand cherries; whereupon he ate one, remarked that it was superb, wiped his weeping eyes on his coat sleeve, supposed that New Zealand was getting warmer every year, wished the dealer good morning and departed, lamenting the growing weakness of his eyes in the sunlight. A chronic dead-beat then came up, took a mouthful of cherries, spluttered them out all over the fruit, stuffed a pear, a peach, a banana and a bunch of grapes into his mouth to take out the taste, informed the dealer that he would have him arrested for keeping green fruit, and went down street to the pump. A lady with two children next appeared, stopped to admire the cherries, asked if she mightn't just taste them—she had never seen any before—supplied the children and walked away with a face fiery with scorn and anger, and the children set up a howl which brought all the people to the windows, and policemen into the street. Thus the fun went on all the morning. The occupants of the adjacent stores, and a shoal of small boys soon learned what was up, and watched the sport. Finally a solemn looking countryman lounged up, inquired the price of them 'ere cherries, invested in a pint, put one in his mouth, took it out again, gave the fruit dealer a lingering look of mild reproach, pulled off his coat and "waded" into him. When he left, the fruit man with tendencies to practical jokes had a blue eye, a red nose and a sprained wrist, and several bunches of fruit scattered around among the small boys, while the ringing roar of laughter was going on from the spectators.

1858. INSURANCE 1879.

HEAD-QUARTERS!

REAL INDEMNITY!

During the last year over fifty insurance companies in the United States, of the smaller kinds, have either failed outright or have re-insured their risks in the older and stronger companies and retired from the field. The best informed insurance men and Journals are of the opinion that many more of the same class of companies will go by the board during the coming year. It is only safe now to insure in companies that have great experience and large assets.

DIMOCK & HAYNER represent sound old companies, the oldest, largest and safest in the United States and Old England, and write policies at the best rates. Losses fairly and promptly adjusted and paid.

STEWART'S BODY.

A Theory by a Canada Man--It was Stolen For Revenge not for Money.

From the Hamilton (Ont.) Times

A gentleman residing in this city, who for many years lived in New York, has a theory as to the stealing of A. T. Stewart's body, which has never been given to the public, and, as it is not only extraordinary, but highly plausible, we give it. Many years ago Mr. Stewart became proprietor of a block of land in New York in which was a closed-up cemetery. It was church property, and the deed which was signed gave the millionaire immediate and absolute control over the land. Anxious to realize on its sale, and true to his ruling passion, Mr. Stewart at once gave orders for the demolition of the old buildings and the leveling up of the grave yard, through the removal of the gravestones and usual cemetery attendants. A number of those who lived in the immediate neighborhood remonstrated, and petitioned the great dry goods merchant for a few weeks time to remove their reverend dead. Mr. Stewart declined to stay proceedings, as he wished to throw the property in the market, and a bitter indignation was aroused. So much did the petitioners take the matter to heart that several of them were heard since and again to utter the threat that if Stewart cared so little for the dead of others, he himself deserved not a decent burial. Others went farther, and asserted that, die who millionaire might, his remains would not be allowed to lie at rest, as they did not deserve to be when he cared so little for the dead of others. Our informant believes that those threats are being carried out, and that Stewart's body was removed out of revenge for the inhumanity practiced by him while alive. Doubt is also cast upon the bona fide character of the negotiations which the newspapers have reported as taking place for the recovery of the body. It may be that after all this talk about the body being stolen in order to make money out of it, is unfounded and our informant's theory is the true one.

The Cabbage.

From Food and Health Leaves.

Just speak to a fine lady about cabbages, and she will think you have mentioned one of the lowest things on earth. Madam you are wrong; it is one of the most useful articles of food. Those ancient nations did not know food science, but they knew the value of good and nourishing things, and they gave them the place of honor which they deserved. Cabbages were thought of highly by the ancient nations, and the Egyptians gave it the honor of letting it precede all other dishes; they called it a divine dish. The Greeks and Romans had a great affection for cabbage, and conceived the idea, which I have myself, that the use of cabbage keeps people from drunkenness. I am persuaded that the constant eating of certain vegetables kills the desire for certain beverages. The Greek doctors ascribed all kinds of virtues to the cabbage. It was thought to cure even paralysis. Books were composed to celebrate the virtues of the cabbage, and ladies partook of it soon after childbirth. The Romans thought even more of cabbage than the Greeks. They ascribe to it the fact that they could for 600 years do without doctors, and Cato actually maintained that cabbage cured all diseases. The ancients knew several kinds of cabbage,—the long-leafed green cabbage, the hard white, so much used in Germany for "sauerkraut," or fermented cabbage, the curly and the red. This last seems to have held the place of honor, and was first introduced by the Romans into Gaul or France, and then brought to Great Britain. Later, the green-leafed cabbage was introduced. The Greeks were fond of aromatic seasonings,—of oil, raisin wine and almonds. They boiled or stewed the cabbage and seasoned it with cummin, coriander seeds, with oil, wine or gravy, making rich dishes of vegetables which we now boil in water and reckon among the plainest food. Something like a remembrance of cooking cabbage among the old Greeks has come down to modern Greeks, for they stuff cabbage leaves with dainty mince meats and then stew them with gravy.

Col. Bob. Ingersoll.

Col. Ingersoll, at Cincinnati, was interviewed as to his feeling toward the Republican party. In the course of the interview occur these passages:

Rep.—Then, if I understand you rightly, you have not deserted the Republican party, but may again give it the help of your eloquent voice?

Mrs. I.—He is not fighting the Republican party, nor never has fought it.

Col. I.—No; if they will help me, or help the cause of human rights, I will help them with all my might. But as for political speaking I do not hanker after it. From 1868 until 1876 I took no part in politics whatever, and did not intend to make a political speech, but was drawn by circumstances into the last presidential campaign.

Rep.—What do you think of Blaine now as a candidate for the next presidential contest? Will the success of the Maine election secure him the nomination?

Col. I.—I think that he ought to be nominated, and I believe he can be elected.

Rep.—Do you think he could do any more in the way of enforcing the laws and maintaining the rights of white and colored Republicans in the South than President Hayes has done?

Col. I.—I think he would do as much as any man. I like Blaine personally very much, and I hope the Republican party of the United States will adopt a platform upon which all Liberals can stand. Mr. Blaine and I do not agree on some religious questions; but I think he is broad enough in his views to see that all should have equal rights before the law, whatever their religious opinions. If he is not, I am not for him. I never will vote for another man in my life for any office, however great or however small, who is not in favor of giving to every human being every right that he claims for himself.

STEEL PENS.

The History of a Wonderful Invention—Their Cost is Three Cents a Gross.

Milwaukee Sunday Telegraph.

The early history of the steel pen is curiously obscure. The most diligent search fails to discover the first maker or earliest date of this implement. There were steel, or, rather, iron pens made, we believe, in Holland as early as the 17th century. Towards the close of the last century, Mr. Harrison, an ingenious Birmingham mechanic, made steel pens for Dr. Priestly. One of them is nothing more than a tube turned out of a flat strip of metal, with the sides and points filed away in the shape of a pen. The first actual supply of such pens, it is believed (the authority for the statement is no more than local tradition), was made by a Sheffield workman whose name is forgotten. From time to time as far back as 1809, steel pens, hand fashioned turned and filed, were made as curiosities, or luxuries for presents; but it was not until about 1824 that such instruments were produced in considerable quantities as regular articles of manufacture. Mr. James Perry was the first manufacturer, but the process was tedious and costly. The metal was steel, rolled out of wire, and for this Mr. Perry paid as much as seven shillings a pound. To the first person he employed he gave five shillings for making each pen; and even when the trade had become regular, he gave for some years as much as 36 shillings a gross to his workmen. Now, thanks to machinery and modern improvements, pens—not very good, perhaps, but good enough to write with—can be made and sold at a profit for three cents per gross!

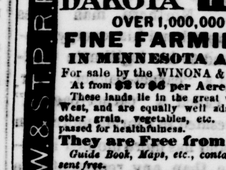
PROF. HARRIS' RADICAL CURE FOR SPERMATTORHŒA.

THE
"SEMINAL PASTILLE"



SHAPE & SIZE OF A SEMINAL PASTILLE

A Valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions & Impotency by the only true way, viz: Direct Application to the principal Seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles Ejaculatory Ducts, Prostrate Gland and Urethra. The use of the Remedy is attended with no pain or inconvenience, it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dizziness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, Etc., Etc., and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation, Practical observation enables us to positively guarantee that it will give satisfaction. ——During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in a neat box, enough to last a month, and sent in a plain wrapper by mail sealed for $3.—Two boxes, (sufficient to effect a permanent cure unless in severe cases) $5.——Three boxes lasting three full months, will stop emissions, and restore vigor, in the worst cases. $7.—Full DIRECTIONS for using will accompany EACH BOX.

Send for a Descriptive Pamphlet giving Anatomical Illustrations, which will convince the most sceptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sent Sealed for stamp to any one. Sold ONLY by the

A Member of Assembly, in each Assembly District of the State, and such county officers as are by law required to be chosen at said election.

GIVEN UNDER MY HAND and official seal, at the Capitol, in the City of Madison, this 28th day of July, A D 1879.

HANS B. WARNER,
[Lesser Seal] Secretary of State.

NOTICE is hereby given that an election will be held in the several towns in the county of Rock and in the several wards in the cities of Janesville and Beloit in said county, on the Tuesday succeeding the first Monday to-wit: on the 4th day of November, 1879, at which election a member of the assembly in and for each of the assembly districts in said county will be elected.

Also a superintendent of schools in the first district in place of J. W. West; and a superintendent of schools in the second district in said county of Rock, in place of J. B. Tracy, whose respective term of office will expire on the first Monday of January, A D 1880. And also the State officers mentioned and described in the following general election notice, which is herewith published and made a part of this notice.

Given under my hand at the Sheriff's Office in the county of Rock, this 11th day of August, A. D. 1879.

JOHN J. COMSTOCK,
Sheriff.

Charlie Payne's
(The Harness Maker.)
COMMANDMENTS!

1st. When ready, thou shalt come to me and trade.

2d. Thou shalt always keep my name in memory, and forget all others in the same business.

3d. Thou shalt honor me and my men with thy trade; so that thou mayst long live in the land and continue to trade with me.

4th. Thou shalt not buy of men who advertise to sell at cost; auction stores; peddlers, or other sharks, else thou get machine made and spongy leather, and pay double their value.

5th. Thou shalt not raise thy voice against my prices, as my goods are marked at Rock Bottom.

6th. Thou shalt not dare to pay for goods in bad money, nor say "Chalk it on the slate."

7th. Thou shalt not steal from me, as I want all I have got, and more too.

8th. Thou shalt get good bargains, as I am content to live on small profits.

9th. Thou shalt not ask me to run book accounts, but pay for thy goods in cash or notes, and buy no more than thou canst pay for when thou agreest to.

10th. Thou shalt buy C. H. Payne's Harness, coarse and fine, his Trunks and Satchels, Whips, &c., and shall always go to his shop to get your repairing done in preference to all others. Thou shalt always get thy money's worth, that thou mayest prosper, and that when in want of any thing in my line, I may see thee again.

Ladies

Do you want a pure, blooming Complexion? If so, a few applications of Hagan's MAGNOLIA BALM will gratify you to your heart's content. It does away with Sallowness, Redness, Pimples, Blotches, and all diseases and imperfections of the skin. It overcomes the flushed appearance of heat, fatigue and excitement. It makes a lady of THIRTY appear but TWENTY; and so natural, gradual, and perfect are its effects, that it is impossible to detect its application.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

IS ADAPTED FOR

Diseases which are produced by Loss of Nervous Power, and consequent Muscular Relaxation, viz:

CONSUMPTION, BRONCHITIS, ASTHMA, WHOOPING COUGH, APHONIA, COUGH, NERVOUSNESS, MENTAL Depression, NEURALGIA, EPILEPTIC FITS, St. Vitus Dance, Nervous Debility, Chronic Diarrhœa, Leucorrhœa, FEVER and AGUE, MARASMUS, Dyspepsia, Dyspheretic Prostration, Interrupted & Feeble Action of the Heart

Diseases produced by Overtaxing the Mind, by Grief or Anxiety, by Rapid Growth, by Child-bearing, by Insufficient Nourishment, by Residence in Hot Climates or Unhealthy Localities, by Excesses, or by any Irregularities of Life.

An endless chain of good effects is formed by Fellows' Compound Syrup of Hypophosphites; and we are safe in saying, from a long experience in medicine, its virtues *are not possessed by any other combination.* NOTE—Be suspicious of persons who recommend any other article as "just as good," though bearing a similar name, and of those who offer the cheaper priced article. ☞ It is only the *independent, well posted,* and *unselfish physicians* who can afford to prescribe this remedy. Experience has proved this. The highest class medical men in every large city, where it is known, recommend it.

Dated Clinton, Wis., Sept. 23d, 1879.

MILTON.

—The writer wishes to return his thanks to the Cornet Band for the serenade tendered him last Saturday night. Their music was testily executed and highly appreciated by all who heard it.

—The dog poisoner got in his work on "Prince" one night last week. Mr McCracken naturally feels indignant about it.

—Superintendent Whitford lectured before the Teachers' Institute at Monroe last Monday evening, upon the Education of Work. The Sentinel says the lecture was well received and appreciated by those who heard it.—*Brodhead Independent.*

—Rev James Bailey took the midnight train on Wednesday for Cartwright's mill, Chippewa County, where he will engage in missionary labors.

—R Smith sold his '79 crop of Spanish tobacco last week at ten cents, and Simon Alder sold his crop at the same price and his seed leaf at six cents. Edgerton buyers were the purchasers. A C Hudson, Bert Holmes and others sold their Spanish to the same parties at the same price.

—Subscribe for the Weekly Gazette and get *all* the news.

—J B Anderson is in the barley business and shipped two car loads to last week to Milwaukee.

—The hog market was active last week, and competition kept prices well up, buyers paying $3 per hundred for good hogs, and in some instances more. Shipments for the week were: Williams & Borden, two cars; Davidson Bro's, one car, and Smith & McNitt one car.

—Rev J T Davis occupied the pulpit at the Seventh-day Baptist church last Saturday.

—Mrs J M Grier returned to Milwaukee last Saturday.

—B W Millerd saw the sights at the Chicago Exposition last Thursday.

—Messrs Williams, Davidson and Clarke visited Milwaukee last week, and saw some of the races.

—George W Brown, of Utica, was in town last week shaking hands with classmates and friends.

—The locality was refreshed by a much needed rain Friday night. It gave the grass a new lease of life.

—Mrs Moon sold her '79 crop of Spanish tobacco last week to Mr Langworthy for eleven cents, and is to deliver the same unassorted. This is the best sale that has been brought to our notice.

—James Mills, who graduated here in the class of '79, has gone into the office of Dr Palmer, at Janesville, to study medicine. Friend Mills has the ability to make a success in the profession and his many friends here trust that success may attend him.

—Last Tuesday Sol Harvey, who had been dangerously ill for some weeks at the house of his brother-in-law at Wauwatosa, breathed his last. The remains were brought here on the afternoon express Wednesday and the funeral took place Thursday afternoon at the Methodist church Rev I S Eldridge officiating. The body was taken to Otter Creek for burial.

—The thermometer marked 80 degrees above zero Saturday night at sunset. How is that for September 27th in a cold country?

—Rev E M Dunn went to Chicago last Friday and came back Monday.

—Many fields of corn have already been cut and shocked and the crop is said to be of good quality

—Tobacco growers are realizing paying prices for their Spanish crops and the growers of broad leaf are likely to get good figures. With the present outlook of the market there is no reason why growers should not be anxious to dispose of their crops unless they realize good prices. The Eastern markets are bare of old cigar tobaccos and the '78 crop is held at high figures, consequently the demand for the '79 crop is strong and prices are likely to advance rather than recede.

—The Autumn leaf harvest is at hand.

—The hickory trees in this locality have undergone the clubbing process and many a lad has laid in a winter's supply of the shell barks.

—The Christian Association of Milton College and the college choir have just purchased a supply of Biglow and Main's "Winnowed Hymns" for their song services.

—The hay market is indulging in a little boom just now and farmers are of the opinion that hay will be worth much more than it is now before snow flies.

—The weather is quite favorable for winter wheat. Early grain is looking nice, and late sown will now come up.

—Babcock, who is drilling a well for D B Wood, Esq., had bad luck last week. He was driving down casing, and the rope which raises his pounder broke, letting the big log into the well sidewise. It struck the casing and bent it and he is therefore obliged to pull out some forty feet of heavy iron pipe before he can repair the damage.

—Eighty tons of coal have been marketed here so far this season.

KOSHKONONG.

—A most horrible accident occurred on last Wednesday, at Elgin, Illinois, resulting in the death, on the day following, of little Emery M. Everett, grandson of Mr. and Mrs. E M Newhall, of this place, and only child of Mrs. Abby L Newhall Everett, the gifted poetess, who formerly resided here. "Mery" will be remembered as a remarkably bright and affectionate little fellow, and during his brief suffering showed a sympathy for the sorrowing ones about him far in excess of his years. This blow to the already grief stricken family seems too great a burden for mortal ones to bear, and is the sixth death that has occurred in the family within a very brief period. Mr. and Mrs. Everett have the sympathy of this community in this their irreparable loss. The remains arrived here at 2:45 o'clock p. m Saturday, and, after a brief service at the family residence, by Rev. J. C. Rogers, were interred in the Otter Creek cemetery. The casket containing the remains was a beautiful one, and was decked with immortelles and other flowers in a very appropriate manner.

—Miss Ruth A Graham resumed her studies at Rush Medical College on Thursday last.

—Mr M J Lane, Texas' favorite cow boy, is rusticating in Badgerdom these days.

—The amusement loving people of Milton Junction and vicinity are indebted to Mr Harry Marks for one of the best balls ever given in Morgan's hall. It was thoroughly "bon ton" in all respects.

—Mr. Kimball Killam's residence was the scene of a lively little dance on Wednesday evening of last week

—The water in the lake is the lowest it was ever known in the history of the country, being estimated at an average depth of three and one-half feet.

—The amount of fall sown wheat is immense as compared with former seasons.

—Bee keepers are likely to realize a goodly amount of "filthy lucre" for their liquid sweetness this fall.

—Mr Philip Marquart was the victim of a surprise party last Saturday. He was fifty-six years of age on that day, and all wished him many more years of health and prosperity.

—Miss K A Mills closed her fall term of school Wednesday, Oct. 1st.

—Our cheese factory will doubtless keep running during October.

—Mrs W D Willis returned to Elgin, Illinois, on Monday last.

SANFORD'S RADICAL CURE For CATARRH

INSTANTLY relieves and permanently cures this loathsome disease in all its varying stages. It possesses the soothing and healing properties of plants, herbs and barks in their essential form, free from every fibrous contamination, and in this respect differs from every other known remedy. In one short year it has found its way from the Atlantic to the Pacific coast, and wherever known has become the standard remedy for the treatment of Catarrh. The proprietors have been waited upon by gentlemen of national reputation who have been cured by this remedy, and who have, at considerable expense and personal trouble, spread the good news throughout the circles in which they move. When you hear a wealthy gentleman of intelligence and refinement say, "I owe my life to Sanford's Radical Cure," you may feel assured that it is an article of great value, and worthy to be classed among the standard medical specifics of the day.

THE benefit I derive from its daily use is to me *invaluable.*
HENRY WELLS, of WELLS, FARGO & Co.

IT has cured me after twelve years of uninterrupted suffering.
GEO. W. HOUGHTON, WALTHAM, MASS.

I FOLLOWED the directions to the letter and am happy to say I have had a permanent cure.
D. W. GRAY, M. D., MUSCATINE, IOWA.

I HAVE recommended it to quite a number of my friends, all of whom have expressed to me their high estimate of its value and good effects with them.
WM. BOWEN, 225 PINE ST., ST. LOUIS.

AFTER using two bottles I find myself permanently cured. I have since recommended over one hundred bottles with the greatest success.
WM. W. ARMSTRONG,
159 HARRISON AVE., BOSTON.

WE have sold SANFORD'S RADICAL CURE for nearly one year and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have yet to learn of the first complaint.
S. D. BALDWIN & CO., WASHINGTON, IND.

THE cure effected in my case by SANFORD'S RADICAL CURE was so remarkable that it seemed to those who had suffered without relief from any of the usual remedies that it could not be true. I therefore made affidavit to it before Seth J. Thomas, Esq., Justice of the Peace, Boston.
GEORGE F. DINSMORE, DRUGGIST, BOSTON.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

A MORBID SWELLING.

Gentlemen,—I sent for one of COLLIN'S VOLTAIC PLASTERS, and it has been of great benefit in reducing a swelling in my left side that two physicians pronounced Enlargement of the Spleen, and one pronounced it an Ovarian Tumor.
L. A. RISTER.
CYNTHIANIA, IND., March 20, 1877.

THEY ARE THE BEST.

Gentlemen,—Enclosed you will find $2.25, and I wish you would send me another dozen of your COLLINS' VOLTAIC PLASTERS. By the above you will see that I can do something to help others in some way even if I am not able to be up and around. There are a number who have tried your plasters who had given out that all plasters were good for nothing, and now join with me that they are the best they have ever tried. I have got along this winter better than I have before in three years. Wished I could have heard of your plasters before. Yours, &c.,

Chronic Diseases
—OF THE—
THROAT,
LUNGS,
HEART,
STOMACH,
LIVER.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

Dr. Price's reputation has been acquired by candid, honest dealing and years of successful practice.

My practice not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

TUESDAY, SEPT'BER 30, 1879.

CITY AND COUNTY.

BRIEFLETS.

—By-by, September.

—It tries hard enough to rain.

—Young Baumgarten has secured Attorney William Smith as his legal adviser.

—Dr. E. W. Beebe, the well-known eye and ear surgeon, is to be in the city tomorrow, and can be found at the Myers house.

—The Rock County Pharmaceutical Society is to hold its next meeting on the 15t hot October instead of the date erroneously given yesterday.

—Rev. T. W. MacLean, rector of Trinity church, left this afternoon for Mazomanie, to attend the quarterly convocation at that place. He expects to return home Thursday.

—Mrs. Mack expresses herself as horribly shocked at the fiendishness of the Baumgarten murder. Now it would be interesting to know what Baumgarten thinks of the Mack murder.

—Owing to a change in arrangements the funeral services of Miss Maggie Connors will be held to-morrow morning at 10 o'clock from St. Patrick's church, instead of the time previously announced.

—At a meeting of the Quarterly Conference of the Court Street Methodist church last evening, C. C. Cheney was chosen as a delegate to the Lay Conference which meets in Milwaukee this week. M. M. Phelps was chosen as an alternate.

—Eugene Harvey, the young man who was injured by trying to board a moving train near Milton Junction last Friday, had his left foot amputated just above the ankle yesterday. Dr. Barrows assisted by Drs. Chittenden of this city, performed the operation. Young Harvey is now in a fair way to recover, and his condition is in every way encouraging.

—One of our young and rising grocery clerks—early rising, found on going to open the store this morning that the salt and kerosene barrels, of which there were a number on the sidewalk, had been piled up in front of the door, forming a complete barricade, which it took him an hour or so to get out of the way. The boys were out last night. Who were they?

—At the benefit concert to be given at Lappin's Music hall next Friday evening the following musicians are to take part: Mrs. J. W. St. John, Mrs. H. A. Smith, Mrs. C. B. Conrad, Mrs. C. E. Moseley, Miss Lizzie Battle, Prof. Titcomb, Mr. D. D. Bennett and Mr. W. W. Ashley. With such an array of talent the concert cannot but be a fine one. The tickets are placed at twenty-five cents each, and at fifty cents for the dance to follow in Apollo hall. The event will be an enjoyable one and full of interest.

—About eight o'clock last night as Miss Susie Hutchinson was proceeding home in company with her sister and two other ladies, she was robbed of her portemonnaie, by a thief who run up behind her just as the prrty reached the corner by Mr. Pease residence, and snatched the portemonnaie away from her. It contained only a few dollars, but the audacity of the robber is such as would better grace the record of a large city. The thief after getting possession of the prize run at a lively gait toward Milwaukee street and escaped.

PERSONAL.

—Rev. Jenk Ll. Jones has left for a trip to Western Iowa.

—Rufus Royce is in the city visiting Mr. and Mrs. Wm. A. Lawrence, and greeting friends with accustomed cordiality.

—Mrs. Clithero, wife of Rev. Thomas Clithero, of Geneva, is visiting her parents, Mr. and Mrs. J. M. Riker, of this city.

—Mrs. Justin Jacobs and children, who have been visiting her parents, Captain W. C. Lowber and wife, and other relatives and friends here, left this morning for their California home.

—Johnny Armstrong arrived in the city yesterday afternoon from Chicago where for seven years he has been one of the compositors on the Times. His old friends here gladly improved the chance to shake hands with him again. He left to-day for Oregon, Wis., to visit his folk there, and in about a week will go to Missoula, Montana, to go into the employ of his brother, Duane, who is publishing a newspaper there.

—Mr. H. Kenniston, who has been turn key at the jail thus far during Sheriff Comstock's administration, has resigned, owing to the ill health of his wife, and stands ready to engage in some new business. His place is to be filled by Mr. Ed Tracy, of Center. Mr. Kenniston has proved himself capable in all respects and has performed his duties to the satisfaction of all. His successor is in all respects fitted for the position, and brings to it a larger experience than falls to the lot of most, he having served several years on the police and detective force of Chicago.

One year ago to day at 7 o'clock a m the thermometer stood at 65 degrees above and at 2 o'clock p m at 82 degrees above.

The indications to day are, cloudy weather, with rain, colder northwest winds, rising barometer, preceded in southeastern portions by warmer southerly winds, and falling barometer.

CRUMBS FROM THE COUNCIL.

A Gathering of Items from the Meeting of the City Fathers Last Night.

The regular semi monthly meeting of the Common Council was held last evening, at which His Honor, Mayor Cobb, presided,—all the Aldermen being present except Alderman Joyce.

The Clerk read the Journal of the last meeting, which was approved.

The Clerk read a miscellaneous batch of accounts, which were referred to appropriate committees.

The September report of the Board of Education was presented, showing that orders to the amount of $1782.82 had been drawn on the treasury during the month. The report was referred to the Committee on Schools, and shortly after reported back by Ald. Cox as correct, and ordered published.

The application of John Spence, for a liquor license, was presented, referred to the License and Judiciary Committees, and on receiving a favorable report from both committees, license was granted.

Ald. Vanklrk, from the Finance Committee, reported favorably on sundry bills against the various funds, which were concurred in except those from the Fifth ward, which, at the suggestion of Ald. Fitzgibbon, were withdrawn from separate action.

The Fifth ward bills created quite a war of words between the representatives of that constituency. Alderman Fitzgibbon claiming that the bills presented were as to *when* or *where* the work was done, and irregular in the fact that that they bore no evidence that other bills previously presented were withheld by his colleague.

Ald. Burns explained that in making out the bills questioned, he followed the form of all other bills; if they were not correct or his bills were not in form, he would gladly correct them, and asked the City Attorney if they were in form. The City Attorney said the bills were as much in form as other bills acted upon by the Council, but were not in accordance with the provisions of the charter. The war of words between the two gentlemen went on, but developed nothing excepting, that, as Alderman Fitzgibbon stated, that he was not aware that by the election of his colleague last spring, that he (Fitzgibbon) relinquished any of his rights as an alderman. The bills that were withdrawn from the file of bills, were referred to Ald. Burns, and the bills withheld from the Finance Committee were taken up and allowed. These bills were for work of repairing a culvert or bridge in the Ward, which had been ordered by the Council, there being a difference of opinion between the two Aldermen about the work, and was ended by Ald. Fitzgibbon gaining his point.

Ald. Croft introduced an order for a lamp post at the southeast corner of Main and Milwaukee streets, to be erected by the Chairman of the Gas Committee.

Ald. Church offered an amendments amounting to the same, omitting the Gas Comittee chairman.

The amendment was lost and the original motion prevailed.

Ald. Burns introduced an order for a lamp-post at the Southeast corner of the Central school lot. Referred.

On motion of Ald. Croft James Fathers and David Benoit were confirmed as members of Water Witch Engine Company No. 2 vice Elmer Main and MJA Norris resigned.

Ald. Robinson introduced an order for an index book for council proceedings at a cost not to exceed $50. Referred to Printing Committee.

On motion of Ald. Church, W H Bonesteel was appointed a Special Policeman, without cost to the city.

Ald. Robinson introduced an order for publication, giving notice of action on the proposition to open Jackson street. Adopted.

The Gas Committee was granted further time to consider the subject of a lamp post on Ann street.

The special committee on the stone question at Spring Brook was given further time.

The Gas Committee reported favorably on a lamp post at the corner of Franklin and Wall streets. Concurred in.

The Chief Engineer of the Fire Department was instructed to see that the bells were properly rung at fire alarms.

The Council adjourned.

THE BAPTIST BIBLE SCHOOL.

The quarterly exercises of the Bible School of the Baptist church were held last Sabbath at the usual hour, in the audience room. A brief, but very complete review of the lessons of the quarter was given by teachers appointed for the service. Exceedingly interesting remarks were made by Rev. Mr. Himebaugh, of the Seamen's Bethel Home, Chicago. The Secretary's report showed contributions of over $40, and an average attendance of 229 for the quarter. This attendance appears highly encouraging when it is remembered that vacation time takes from the city numbers of faithful teachers and scholars. A large number, however, had remained constantly in their places, not missing a single Sabbath. There are at present 27 classes, with an enrollment of about 400.

A SAD BIRTHDAY.

One of the saddest and most sudden of deaths occurred this morning, at the home of Mr. L. M. Thayer about five miles from this city, in the town of Janesville. Mrs. Thayer arose this morning in accustomed health, and proceeded with her household duties as usual. About 11 o'clock, while busy in the kitchen, she fell suddenly to the floor, in what seemed a deadly faint. Her son instantly started for this city and hurriedly summoned Dr. Palmer, but long ere he reached the sorrow stricken home the worthy wife and mother was beyond all need of help, for life had quickly fled. She died with scarce a moment's warning or a word of farewell. The cause of the sudden death was pronounced by the physician to be heart disease. It is a strange and sad coincidence that this very day on which death so suddenly called her home, was her birthday, she having reached her sixty-fifth year. The blow to the family is a crushing one, and the most sincere sympathy for them will be called forth in this community by the announcement of the sad event.

FORGED NOTES.

A Young Man Arrested for Alleged Crookedness, and Two Forged Notes Captured.

A young man named Henry Wallace Stanley has got himself into trouble, which may prove quite a serious matter with him before the end comes. It is claimed that for two weeks he and his wife boarded with Hiram Osgood, in this city, and that the board bill was allowed to run because the young man apparently had unexpended wealth in the form of two notes. One of these was for $73, and was signed by Stephen Bowerman, of Fulton, for whom Stanley and his wife had been at work during the summer. He offered this note to Osgood to pay his board bill, and was to receive the difference in cash, but for some reason Osgood could not conveniently get the note cashed and so Stanley started down town with him a week ago to-day to get money on it and pay up his board. Stanley's wife is said to have left that morning and Stanley himself gave Osgood the slip while down town, and was seen no more.

It being ascertained that Stanley's wife was boarding at a Mr. Lamphere's in Clinton, watch was kept out for Stanley himself, and it was ascertained that Saturday night last he arrived in Clinton, stopping there under the name of Henry Wallace. Yesterday Constable Drake went to Clinton and arrested him. While on his way to the depot with his prisoner, the latter slipped his pocketbook to an acquaintance and told him to take it to his wife. The officer finding that he had not the note with him, which he had reason to believe was forged, secured possession of the wife's satchel by aid of Deputy Sheriff Marsh and found there the note spoken of, and also a note purporting to be signed by a man by the name of Cross, who also lives at Fulton, this note being for $120. It is claimed that both notes are forgeries, and that the prisoner admits them to be such. His only excuse for forging the notes was that when "the rest of the boys," meaning those with whom he had worked in threshing etc., were blowing about their earnings and wealth, he could play bluff by pulling these papers out and astonishing them by showing them how well he was heeled financially. Mrs. Stanley appeared greatly shocked when the officers found the notes, and went into a fit of wild hysterics. She claims to know nothing about them, and is strong in her assertions of her husband's innocence. Stanley was brought to this city last night, and will have a chance to explain more fully his side of the story.

KNOCKED AND KICKED.

A Johnstown Man Is Badly Used Up in a Quarrel About a Charivari.

Yesterday afternoon there was a serious case of assault and battery just north of Johnstown, the results of which cannot be determined for several days. An elderly man named John Monighan had a daughter married a short time ago, and some of the young men indulged in a charivari. Yesterday after dinner as a number of young men engaged in threshing, were talking over the matter a dispute arose between Monighan and a young man by the name of N. Mullen. Words soon caused blows and Monighan was knocked down, after which as is claimed, young Mullen kicked him several times causing some severe bruises and painful injuries. There was an ugly scalp-wound on the side of the head, and a bad bruise near the temple. There were several bad injuries from kicks on the body, one on the side being particularly serious. Dr. Carey, of this city, was called and examined the injured man. No fracture could be detected, and it is thought that he will recover in good time, but there is danger of internal injuries of an even more serious nature than appear now. He suffers greatly, and even if fortunate enough to escape a long and dangerous illness, will be sore and lame for some time.

Constable Taylor, of this city, armed with a warrant, arrested young Mullen and brought him to the city last night. He was brought before Justice Brooks and gave bail of $100 to appear next Saturday to answer to the charge of assault and battery.

Tobacco Market.

[From the United States Tobacco Journal.]

NEW YORK, Sept. 27, 1879.

Owing to the Jewish holiday, the week's business in our market virtually closed on Friday afternoon. To holders of new tobacco, the transactions made were of such a nature as to inspire great confidence. With the bona fide purchase of about 900 cases of '78 Pennsylvania by prominent cigar manufacturers, who intend applying it to fine quality cigars, from a packer here, the reputation of this class of '78 tobacco is firmly established. The yield of wrappers of this tobacco will be remembered for a long time to come as highly unsatisfactory, while in quality it cannot be surpassed. If there were any rival tobacco in the market, holders of the '78 Pennsylvania would lose enormously. The '78 Connecticut, fine, silky and popular as it is, is equally lacking in wrappery stock, and of the '78 State there are not sufficient quantities to interfere with the sales and prices of the two first-named articles. Under these circumstances manufacturers will be losers this year, unless they raise the prices of their cigars considerably. It would be better for them to do it now than later.

SPLENDIDS!

Sold from the little store, 56 North Main Street, alone, and every one giving perfect satisfaction. It is an easy matter for dealers to every season put in print, "Well, *now we have got* a stove to beat the Splendid." But when you ask them to show up the points of superiority, about all the satisfaction you get is "Oh! we've more frills and nickle plates, and foot rails," &c.; but when you get down to business, the following points possessed by the SPLENDID, and found in no other stove to date, is what troubles all the boys to get around:

1st, By the Ventilated Base we present one-third more heating surface.

2d. By the Latch fastenings for all doors, in place of Turn Buckels, you are safe from doors springing open, thereby emitting gases into rooms

3d. By the Sliding and Vibrating Grate we enable you to have a fresh fire at any time free from dust and waste of coal.

4th. The sectional Fire Pot will last longer and can be replaced at one third the expense of any other.

5th. The Revolving Top swinging within circle of stove, never falls off or gets broken.

In regard to finish and fittings of castings and beauty of design, are way ahead of all competition.

In regard to the Splendid Oven or Parlor Cook, we are authorized to make a public test at any time, and guarantee to get up steam quicker and hold it longer on same amount of coal.

We have also the new
